CUBO

Echoes of Light

The Cubo collection continues Articolo Studios exploration in contrasts—juxtaposing precision, machined materials with the soulful poeticism of the handcrafted, solidity with transparency. Each light has been honed to reveal a simplicity of form with edits to remove the superfluous. The result is a collection of eight wall sconces and pendants that unite in concentric, geometric form yet offer a diversity of configurations and chromatic, textural light.

The unadorned geometry of Cubo feels architectonic and grounded while Cubo Swing offers a lighter, more playful interpretation—creating a sense of movement within the interior environment.

Available in a selection of hand-crafted metal casings and five desaturated glass hues: Ice, Guava, Honey, Mint and Smoke. Molten glass is poured into a hand chiselled wooden mould, producing a unique textural imprint on the surface of each glass block casting a choreography of chromatic shadow play on the illuminated surface.

Cubo is suitable for all interior environments with a selection suitable for exterior installation, confident that they will endure the most elemental of environments.
