LIGHTING COLLECTION

SWIVEL

A Choreography of Light

Articolo Studios has long been renowned for designing objects of the finest quality; infusing sophisticated engineering with an elevated design aesthetic. The first adjustable task light within Articolo's collection, Swivel is a testament to Articolo's maturation. The tacit knowledge accrued from ten years in lighting has resulted in a light that offers exceptional performance and technical intelligence without sacrificing the meticulously designed decorative fitting for which we are celebrated.

For more information on the Swivel Collection, including finishes, please visit articolostudios.com

As a pendant, Swivel can be suspended for a singular concentrated task light or when connected in multiple configurations, each unit can be curated to create bespoke light solutions to compliment one's life—be it task light over bench to prepare food with a softer light opposite for those that dine or a customised lighting scene for the activity around a boardroom table.

As a wall sconce, Swivel can be orientated to the task at hand. The ovoid diffuser is crafted from the finest quality technical European glass which offers unsurpassed clarity. When installed in the bathroom the consistent and directional light allows one to apply their makeup or perform their daily grooming rituals, perfectly illuminated, void of shadows. As a modular fitting, the wall sconce can be connected to create a commanding sculptural array and as each fitting is independently adjustable, one can create a bespoke lighting-scape to complement their interior environment.

Available in a choice of brass or bronze, Swivel can be customised in a choice of five leather inlays or brass or silver Italian mesh.

Swivel is available in small, medium, large and extra-large. As a modular fitting, Swivel can be configured in a diverse number of configurations. The fitting rotates at 15° intervals in a full 360° cycle, allowing one to up-light the ceiling to celestial effect, concentrate light on the task at hand, or highlight artwork or architectural detail of merit.
